BREV

Frontend Engineer & Web Developer

CAREER

Yahoo! Inc.

Lead Engineer   Jul 2007 - Jun 2011

Engineering Manager, Lead Engineer, Lead Frontend Engineer, Hiring Manager, and Scrum Master for Yahoo! Local Search, Upcoming, and Yahoo! Neighbors. These sites serve several million users per day.

Backcountry.com

Lead Engineer   Aug 2002 - Jul 2007

Team Lead and Lead Engineer for a scalable platform of seven online retail stores. Each month these sites handled millions of dollars in sales, and several hundred thousand users.

Red Hat, Inc.

Senior Web Developer   Feb 2001 - Jun 2002

Built a turnkey e-commerce software suite that received favorable reviews in the trade press. Created a wiki-based web application that powered the corporate intranet. Developed enterprise web solutions for clients such as Compaq, Canon, and McGraw-Hill.

Mediabang!

Web Developer   Jul 1999 - Feb 2001

Created dynamic websites for clients such as the Sundance Film Festival, Franklin Covey, Brewvies, and the Utah Highway Patrol.

XMission

Support Engineer   Apr 1995 - Jul 1997

Customer support for Utah's first and largest Internet Service Provider. Developed web-based statistics monitoring to watch the health of routers and servers. Created a CD-ROM installer for new user connectivity software.

Starnet

Junior Software Developer   Dec 1994 - Apr 1995

Developed client software and user interfaces for an early video server system. Captured embedded data in video streams for statistics generation.
